POWDER BROW COSMETIC TATTOO ADVANCED COURSE

Live Webinar + Demo Video + Practical Day
MASTER JUDY NGUYEN

This course is designed for semi-permanent make up artists who have been trained with machine technique. The purpose of this training is to keep you up to date with the latest powder brow techniques, point out and fix your common mistake, upgrade your skills towards working more efficiently and controlling the heal result. You will learn all about how to create different eyebrow styles to suit your clients including ombre brows, soft powder brows, bold powder brows and combination brows. In this masterclass, you will also learn colour correction to fix brows that turn red/purple/blue. To join this class you need to have hand-on experience in machine brows and send us your eyebrow work portfolio.

Powder Brows by Judy Nguyen is the new techniques of cosmetic tattooing that allow implanting a high concentrated pigment into your skin with an outstanding result:

- ✓ Transparently
- ✓ Superficially
- ✓ Very natural shape
- ✓ Very natural colour
- ✓ Without significant trauma

The healing process of Powder Brows by Judy Nguyen is faster and less invasive compared to the old techniques. The fading time depends on client's skin type, immune system and hormone balance, averagely 12-18 months.

Powder brow result is more predictable than microblading and more natural than old-school cosmetic tattooing.

After healing, the eyebrows will look soft and natural, lasting up to 2 years. To have a vivid colour and a well-defined shape, refreshment of semi permanent make-up is recommended every 1-1,5 years.
